# How to use

## Step I. Connecting to App\*

\*It is necessary to connect the timer to the Cube Station App if you want to store and analyze unlimited solves. Connecting to the App is not necessary for the timing function.

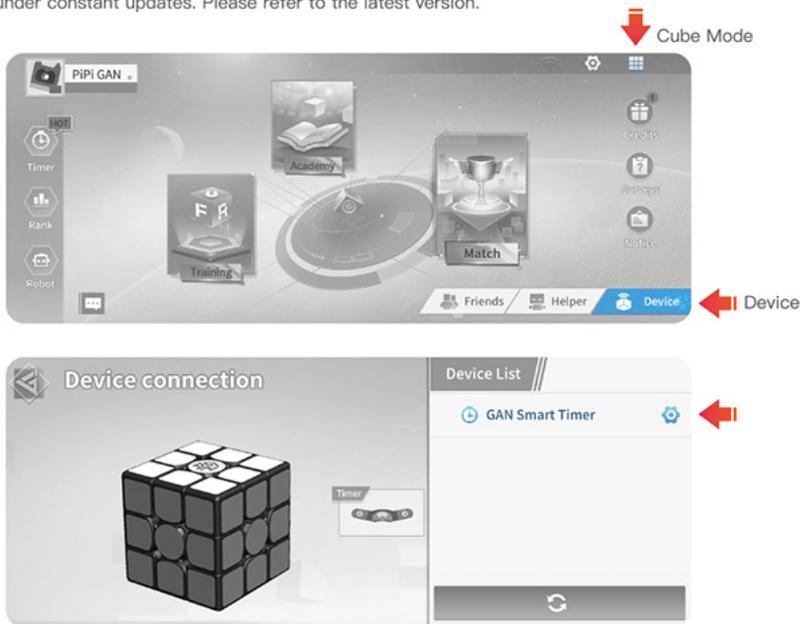

### 01 / Downloading

Download the 'Cube Station' via the QR code at the end of the page.

### 02 / Connecting

Turn on the timer and the Bluetooth of your smart phone. Select 'Smart Cube' or 'Regular Cube' in 'Cube mode' and 'GAN Smart Timer' in 'Device'. The timer is successfully connected when the Bluetooth icon in the display screen stops blinking and remains on.

\*The App is under constant updates. Please refer to the latest version.

### 03 / Disconnecting & Reconnecting

To disconnect: hold 'Reset' for 3s.

To reconnect: turn off the timer and start from step 02.

### 04 / Link & Remove

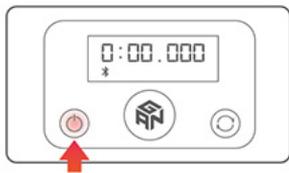

After connecting the timer to the App, you can link an exclusive ID.

Press 'Switch' and hold for 3s if you want to remove it.

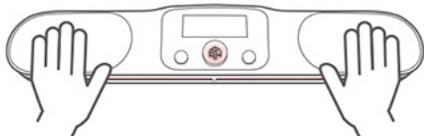

## Step II. Usage of Timer

### 01 / Start Timing

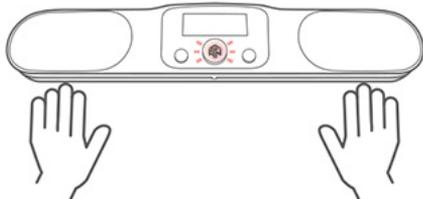

#### ① First Timing

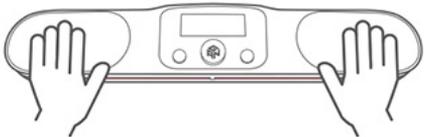

A. Press 'Power' to turn on the timer.

B. Lay both hands on the touch pads for 1-2s and wait for the GAN logo light and signal rim to be on.

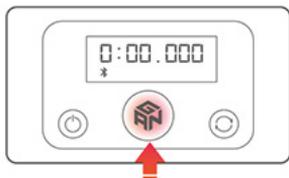

C. Lifting hands, the GAN logo light will start to blink and the timing begins.

D. Stop timing by laying hands on the touch pads again. The logo light goes out when timing finishes.

#### ② Time Again

Press 'Reset' to save current result and reset. The timer is then ready to time again.

#### ③ Turn off the Timer

Press 'Power' to turn off the timer. The timer will also switch off by itself after 5 minutes without any operation.

## 02 / Saving/ Checking/ Deleting data

### ① In Cube Station App

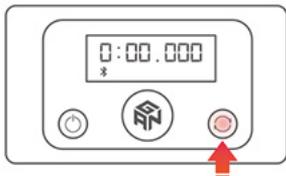

Results will be automatically saved after connecting the timer to the Cube Station App. You can check and delete them in the App. (Main page – Timer – Group Data)

\*The App is under constant updates. Please refer to the latest version.

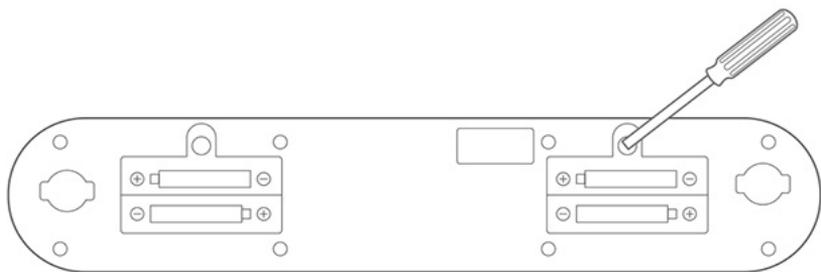

### ② In the Timer

Recent 5 results and the AO5 result will be automatically saved. Press 'Switch' to check the latest result, repeat pressing can review recent 5 results and the AO5 result. Results will be cleared after turning off the timer.

# Battery Replacing

1.5V AAA batteries are applicable. Batteries must be installed per directions instructed. The touch pads must not be touched during installing the battery.

## Battery Safety

1. Use 1.5V AAA alkaline batteries only.
2. DO NOT mix old and new batteries or different batteries.
3. Drained batteries must be removed from the timer .
4. DO NOT connect the timer to power devices over DC 3.0V.
5. When battery is low, the timer screen flashes for 5 seconds, then shuts down automatically.
